Salisbury, Stonehenge and Bath

Tour Style: Private driver-guide

Two UNESCO World Heritage Sites and a UNESCO “memory” status site in one day.

Salisbury Cathedral is not your everyday place of worship; it has several special attributes. Firstly, it has a 404 ft spire, making it the tallest medieval church in the world. Secondly, it has an original copy of the Magna Carta (regarded by UNESCO as one of the most important constitutional documents in history), hence the Memory of the World award.

Salisbury is part of an exclusive gated community called a “close” - within the close stand several beautiful historic houses and pieces of modern art.

From Salisbury, we head into the Nadder valley and stop at a lovely old country pub or a picnic at the ruins of Old Wardour Castle if the weather is particularly nice.

Stonehenge and the exhibition is a short drive; your guide will enlighten you on the features and history of Europe's most famous ancient monument, thought to be a temple to the sun, moon and stars.

We then head north to the UNESCO city of Bath. The city has been a tourist spa town for nearly 2000 years. The Romans harnessed the springs and developed an advanced leisure complex, complete with steam rooms, plunge pools and gyms.

The 18th-century city architecture has attracted filmmakers in their droves. More recently, Bath became a film set for “Bridgerton”, the hit period drama.

Wales and Gloucester or Enjoy the Spa and More

Cotswolds Touring

Tour Style: Private driver-guide

Broadway is a short hop from the Welsh Border. Head over the impressive Seven Bridge and enjoy one of the world's greatest suspension bridges.

Wales is famous for its landscapes, castles, rugby and singing. Today we see Chepstow Castle, a medieval marvel perched on cliffs high above the River Wye. Built to guard the border between England and Wales, the structure has withstood centuries of warfare and weathering but remains largely intact.

Explore the chambers, and your driver-guide will tell you tales of life in the middle ages. Drive a short distance up the Wye Valley to Tintern Abbey, a relic of the golden age of the monastic communities. Think of Tintern today as a romantic ruin, painted and photographed by many, but still a secret to most foreign visitors. Your guide will explain the lifestyle of Cistercian monks in the 13th century and walk through the complex and show you their daily routine.

Enjoy a simple Welsh Rarebit lunch before heading further up the Wye valley.

We stop briefly in historic Monmouth or Symonds Yat, a beauty spot, before heading to Gloucester.

There are so many beautiful cathedrals in England, so which ones do you choose to visit?

We like those with a story, unique architectural elements and special things to see.

There is a stunning gothic vault, the tomb of King Edward II and the most beautiful cloisters in Europe. Gloucester has it all, plus it is a film location for the Harry Potter series of movies.

Overnight: The Lygon Arms, Broadway.

Day 9

Oxford and Blenheim Palace

Tour Style: Private driver-guide

Drive down through the rolling Cotswolds hills to Blenheim Palace, the birthplace of Sir Winston Churchill, Britain's great wartime leader.

Blenheim Palace is an iconic country home and palace. It is the ancestral home of the Dukes of Marlborough, the first of which defeated King Louis 14th troops at the battle of Blenheim on the River Danube in 1704. John Churchill, the first Duke, received the estate at Woodstock and built a home as a gift from a grateful nation. It is a giant baroque palace in the middle of "capability" Brown landscaped grounds. The whole estate is awe-inspiring. The state apartments tell the story of the victory over the French King with the help of a series of detailed tapestries specifically designed to hang on display in the staterooms. The rooms with paintings and furniture are a fascinating insight into the life and time of an 18th-century war hero. Enjoy the fountains, gardens, miniature train, butterfly house and maze.

Blenheim offers several tour options apart from the obvious staterooms. We will advise and explain the options when booking.

After lunch in Woodstock, head into Oxford, England's oldest university city.
